

Adjustability is a necessity in many environments. When there are multiple users of tables and desks, each person may need to position the table surface to an appropriate height to suit his or her own needs. Gibraltar offers two height ranges that easily adjust to provide a user with individual comfort and versatility. Our bases are adjustable in length from 45" to 68" to accommodate tables that are 45" to 72" long and tops that are 24" to 36" deep.

Features:

- Adjustable frame size to accommodate multiple table lengths
- Handle retracts under table
- Maximum recommended lift weight 200lbs.
- Adjustable Levelers
